

## Believe That ft. Carl Fontaine, Du2ce, Dre da Flame, Path

### **Verse 1 (Solid)**

Believe up! Gotta watch what we've been on/ I won't shrink back, now I bring that, used to often get it wrong  
Now Solid where I belong, confidence is strong/ I'm trusting in that King James, I ain't talking about Lebron  
Not just believing it, naw we be living it/ jokers ain't jackin' the deck, a king who's we're dealing with  
This the kingdom, join as we're building it/ peaceful with the people, but show us a track, we're killing it  
Feed 'em meat soldier, call me a steak holder/ now the waits over, let Him take over  
If your best days are the ones that you ain't sober/ best check what you believe and think some things over  
Don't turn the bass lower, all ya'll gotta be warned/ Can't just believe Jesus, gotta follow Him cuz He's Lord  
Don't know? Better study up, you'd know if you'd read more/ it's in His Word, God said it first, what you mad at me for?

### **Hook**

Believe that! I believe that  
He died, rose, He's coming back: I believe that  
Many are called, few are chose: I believe that  
Yea we new that, see that, and believe that  
Say "I believe that...." (repeat)

### **Verse 2 (Carl Fontaine)**

He rose and I'm reppin', hero, yeah I'm destined/ I'm a believer, my Savior's a healer and now I'm reaping the blessings  
"Mr. Fontaine, your life has really changed up"/ I told you on my last joint, this is not a game son  
I am a believer so I'm focused on my mission/ if you're hunting for the truth, me and my homies, we be fishing  
You may think I'm crazy and my Jesus is just make believe/ at least you're thinking something bro, my job is to just plant the seed  
I rep Jehovah, no Jay-Z, your verses sound like ABCs/ believe that, Yahtzee, we're winning now, you can't play me  
I'm a rebel, I don't fit in society/ Jesus is my role model, I am not a hype beast  
I was called for greatness, no BMI for my royalty/ turn this up when you play this, the whole world gotta hear the King  
I'm the light of the world, you won't put this fire out/ I'm unashamed, believe that, refuse to hide it now

*Repeat Hook*

### **Verse 3 (Du2ce)**

I used to be the dude like "Where the weed at?"/ now I'm like: "That Word of God, you need to read that"  
Believe that. We are in a spiritual fight and I am treating the enemy's head just like a speed bag  
The road is narrow, I believe that/ and only few will enter, most don't believe that  
And I ain't here to tickle ears and have you lean back/ but tell you to repent from your sins, His love, receive that  
Be born again (born again), made new (made new)/ He saved m (saved me), He can save you  
But if you brush Him off, cuz you think you're flyer/ thinking you don't need no Savior man, the devil is a liar!  
That'll lead you to the fire, and it's real/ and we gotta tell the truth cuz this world is full of liars  
Repent and believe, Jesus is the resurrected King and Messiah. Believe that!

*Repeat Hook*

### **Verse 4 (Dre da Flame)**

I believe, therefore I am freed/ sin ain't got nothing on me, it's crazy, He chose to bleed  
A tree of life planting seeds in rich soil, rip out the weeds/ I'm saved by faith, not my deeds I'm different, I'm a new breed  
When it's time for my soul to feed, I say my grace then I read/ I go where ever He leads, He satisfies all my needs  
Addicted to Jesus Christ, on my mind like a beadie bead/ yeah, He's really coming back, hear me out, take heed...

### **Verse 5 (Path)**

Trying to take me out, I don't feel it/ Tell me "dumb it down", I don't hear it  
Boy I'm living loud on a mission/ trying to tell me take this Jesus out my lyrics got me trippin'  
Homie, JC saved me love me hate me, I'm livin'/ to please One, so what you do boy it won't phase me, I'm reppin'

The Messiah, won't retire, call me crazy/ and I plan on going higher, you can't stop me if you pay me  
Wilin' out on beats with TCP or on the feature/ nope it's not to be the dopest, my motives go so much deeper  
Yeah Jesus over everything is banging through the speakers/ shutting down the radio cuz mainstream is getting weaker
